Executive Summary

Survey Background and Methods

The Littleton Resident Survey is an important source of context for decision making by the city. It brings the voice of people from across the community to city staff and officials. The baseline survey was conducted in 2012. The 2020 survey is the fifth iteration, which provides valuable data on how the perception of the quality of city services and how residents view their community in general has changed over time. It also provides a way to assess the community's level of support for, or the importance of, potential changes in programs or policies.

The mail survey was administered using scientifically sound, rigorous methods to ensure unbiased, statistically valid, representative results for the City of Littleton. The best survey research practices were used for the resources spent to reduce possible sources of error (e.g., sampling error and non-response error). These practices included selecting households at random to participate, using an unbiased procedure to select a respondent within the household, contacting potential respondents multiple times and weighting the data to reflect the demographic profile of adults in Littleton.

A representative selection of 3,000 residential addresses within the city boundaries was mailed the survey in January 2020. Of the 3,000 surveys mailed, 6% were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. Of the 2,819 households that received a survey, 703 completed the survey providing an overall response rate of 25%.

It is customary to describe the precision of estimates made from surveys by a level of confidence and accompanying confidence interval (or margin of error). A traditional level of confidence, and the one used here, is 95%. The 95% confidence interval quantifies the sampling error or imprecision of the survey results because some residents' opinions are relied on to estimate all residents' opinions. The margin of error is no greater than plus or minus four percentage points around any given percent for all survey respondents (703 surveys).

Survey Highlights

Quality of life marks Littleton as an attractive community in the region.

- On the whole, 9 in 10 residents reported a high overall quality of life in Littleton, a rating that was similar to past survey years and continues to be much higher than the national and Front Range averages.
- Additionally, about 9 in 10 residents felt that not only was Littleton was an excellent or good place to live and to raise children, but their neighborhoods were excellent or good places to live as well. All these aspects have remained consistent over the past eight years and were higher than evaluations given in other communities across the country and in Colorado's Front Range.

- The most commonly cited reasons for living in Littleton included its location (81%), its feeling of safety (59%), and the quality of its neighborhoods (57%). These have been the top three reasons each year since the baseline survey in 2012. However, fewer people in 2020 compared to 2018 agreed that Littleton had tight-knit neighborhoods.
- Notably, favorable ratings for the city as a place to retire have declined over 10 percentage points between 2012 and 2020 (from 82% excellent or good to 71%). When looking at responses by respondent age, residents under age 55 gave significantly lower ratings for this aspect of the community compared to those age 55 and older.

While Littleton is perceived as a safe community overall, some concerns emerged.

- Almost all survey respondents (93%) agreed that Littleton was a safe community and the city had a low crime rate (87%).
- All or nearly all respondents indicated they felt safe in Downtown Littleton, in Littleton overall, and in their neighborhood during the day. About four in five residents felt somewhat or very safe in the other areas in Littleton and at night in the city. Evaluations of safety in Littleton at night (overall and in neighborhoods) declined in 2020 compared to 2018.
- Safety ratings for neighborhoods at night were similar to the national average but much lower than the Front Range. Safety in parks, trails, natural open space areas received scores lower than both the national and Front Range averages. In previous survey iterations, safety ratings tended to be on par with or higher than the national average.
- When providing input to the Littleton Police Department on where to focus its resources in the next two years, residents' top-rated priorities included school safety, violent crimes, and property crimes (at least 9 in 10 rating each as a high or medium priority). These were the same top three priorities in 2018. Homelessness/transient-related issues increased eight percentage points as a priority between survey years and is now the fourth highest priority for 2020.

Mobility remains a pressing issue for residents.

- When evaluating traffic flow in Littleton, only 34% said it was excellent or good; a decrease from 59% in 2012. While the quality ratings of traffic flow have declined over the years, residents have consistently identified it as one of the most important services provided by the city.
- Of seven statements about Littleton, the least often agreed with was "traffic flows well on city streets." This has been the least agreed with statement (out of seven) since 2012 and has declined over 17 percentage points over the past eight years.
- Similar to 2018, a majority of respondents identified traffic in general as the most pressing issues facing the community in the next two years. Traffic as the top issue has increased dramatically over the past eight years from 29% in 2012 to 61% in 2020. Relatedly, street maintenance as one of the top three issues facing the city increased significantly in 2020 from 2018.

- Residents' concerns about mobility and getting around town were reflected in their assessments of transportation-related city services. Looking across all survey years, evaluations of traffic flow and downtown parking have been decreasing steadily and snow plowing experienced a 28 percentage point drop between 2018 and 2020 (61% excellent or good versus 32%). The sharp decrease in snow plowing could be due in part to the timing of the survey administration and a particularly snowy winter. Compared to the nation and the Front Range, Littleton residents gave lower ratings to traffic flow, snow plowing, and Downtown parking.
- Respondents evaluated the importance of potential projects in Littleton over the next five to eight years. About two in five respondents identified reducing traffic congestion on city streets as the most important future (similar to ratings in 2018) and 74% felt it was an essential or very important potential project for the city. The only other project to receive higher importance and priority ratings was maintaining and improving city infrastructure, which includes streets, sidewalks, buildings, etc.

Residents' interactions with the Police Department show marked improvements.

- Eighty-three percent of survey respondents rated the quality of the Littleton Police Department as excellent or good. These high marks remained stable over time and were similar to those given by residents in other communities across the nation and in the Front Range.
- Similar to 2018, about one-third of respondents indicated they had been in contact with the Police Department at least once in the 12 months prior to the survey.
- These residents who had contact with the Police Department evaluated 10 aspects of their interaction with the employee in their most recent contact. Overall, at least 7 in 10 respondents gave positive reviews to Police Department employees, and in most instances, ratings increased significantly between 2018 and 2020. Five of the 10 aspects increased at least nine percentage points (level of interest in addressing concerns, responsiveness to requests/needs, timeliness of handling the situation, helpfulness, and overall impression) and two increased five percentage points (knowledge and fairness).
- Survey respondents assessed various aspects of the Police Department's community relations. Of those who had an opinion, at least two-thirds of residents gave excellent or good reviews to each aspect. Residents felt most positively about the Police Department responding to citizens' emergency calls for service, being trustworthy, acting in the best interest of the community, and caring about the well-being of the people they deal with. Ratings increased between 2018 and 2020 in the areas of being trustworthy and caring about the well-being of the people.

Background and Methods

Survey Purpose

The City of Littleton contracted with National Research Center, Inc. (NRC) to conduct its fifth administration of a community-wide resident survey, with the baseline survey conducted in 2012. The Littleton Resident Survey serves as a consumer report card for the city by providing residents the opportunity to rate city services, local government, community amenities and the quality of life in the city. The survey also gives residents the opportunity to provide feedback to the city on what is working well and what is not, and to communicate their priorities for community planning and resource allocation.

The focus on the quality of service delivery and the importance of services helps council, staff and the public to set priorities for budget decisions and lays the groundwork for tracking community opinions about the core responsibilities of Littleton city government, helping to assure maximum service quality over time.

This type of survey addresses the key services that local governments provide to create a quality community. It is akin to private sector customer surveys that are used regularly by many corporations to monitor where there are weaknesses in product or service delivery before customers defect to competition or before other problems from dissatisfied customers arise. Because a survey such as this generally measures resident perceptions of services and the community, it is a different window into performance than customary tracking of service delivery response times or other observable conditions.

Survey Methods

The 2020 survey was mailed to 3,000 randomly selected Littleton households in January 2020. Residents first received a pre-notification postcard that introduced the survey and explained its importance. One week after the postcard mailed, residents were sent a survey packet. This packet included the 2020 survey, a letter from the Mayor explaining the study and a postage-paid preaddressed envelope in which to return the completed survey. The cover letter included a URL to access the web survey for those who preferred to complete the survey online. A second packet with the same contents was sent to selected households one week after the first packet. Completed surveys were collected over a six week period. Of the 3,000 surveys mailed to the selected households, 6% were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. A total of 703 residents completed a survey (103 of these were completed online) for a response rate of 25%. Typical response rates for general resident surveys range from 20% to 35%.

The survey results were weighted by respondent gender, age, tenure (rent or own), housing unit type (attached or detached) and ethnicity to ensure that the results were representative of the entire adult population in Littleton. For more information on the methodology see *Appendix E: Survey Methodology* and for a copy of the survey see *Appendix F: Survey Materials*

How the Results Are Reported

In the body and narrative of the report, the results for each question are presented using either the full set of response frequencies or the "percent positive." The percent positive is the combination of the top two most positive response options (i.e., "excellent" and "good," "strongly agree" and "somewhat agree," or "essential" and "very important," etc.).

On many of the questions in the survey, respondents could give an answer of "don't know." The proportion of respondents giving this reply is shown in the full set of responses included in *Appendix A: Responses to Survey Questions* and is discussed in the body of this report if it is 30% or greater. However, these responses have been removed from the analyses presented in the body of the report, unless otherwise indicated. In other words, the majority of the tables and graphs in the body of the report display the responses from respondents who had an opinion about a specific item.

For some questions, residents were permitted to select multiple responses. When the total exceeds 100% in a table for a multiple response question, it is because some respondents are counted in multiple categories. When a table for a question that only permitted a single response does not total to exactly 100%, it is due to the customary practice of rounding values to the nearest whole number.

Precision of Estimates

It is customary to describe the precision of estimates made from surveys by a level of confidence (or margin of error). The 95% confidence interval for this survey is generally no greater than plus or minus four percentage points around any given percent reported for the entire sample (703 completed surveys).

Comparing Survey Results by Respondent Subgroups

Selected survey questions were compared by certain respondent demographic characteristics as well as the city council district of residence, and are discussed in *Appendix C: Comparisons of Select Survey Results by Respondent Subgroups*.

Comparing Survey Results over Time

The 2020 survey was the fifth administration of the Littleton Resident Survey and the 2020 results are presented along with ratings from the prior surveys, when a comparison was available. Differences between the 2020 and 2018 survey results can be considered "statistically significant" if they are five percentage points or more around any given percent. Trend data for Littleton represent important comparison data and should be examined for improvements or declines. Deviations from stable trends over time especially represent opportunities for understanding how local policies, programs or public information may have affected residents' opinions.

Comparing Survey Results to Other Communities

NRC's database of comparative resident opinion is comprised of resident perspectives gathered in citizen surveys from more than 600 jurisdictions whose residents evaluated local government services. Conducted with typically no fewer than 400 residents in each jurisdiction, opinions are intended to represent over 30 million Americans.

National and Front Range benchmark comparisons have been included in this report when similar questions are available for comparison from NRC's database and there are at least five jurisdictions in which the question was asked, though most questions are compared to more than five other cities across the country or in the Front Range. Data for a number of items on the survey were not available in the benchmark database (e.g., some of the services or aspects of the community or quality of life). These items are excluded from the benchmark tables.

Where comparisons for quality ratings were available, Littleton's results were generally noted as being "higher" than the benchmark, "lower" than the benchmark, or "similar" to the benchmark. In instances where ratings are considerably higher or lower than the benchmark, these ratings have been further demarcated by the attribute of "much" (for example, "much lower" or "much higher"). Additional information on NRC's benchmarking database, including jurisdictions to which Littleton was compared nationally and in the Front Range can be found in *Appendix D: Detailed Benchmark Comparisons*.

Resident Survey Results

Quality of Life and Community

Residents assessed a number of aspects of quality of life and the community in general. They also shared their reasons for living in the community and their opinions on the most pressing issues facing Littleton in the next two years.

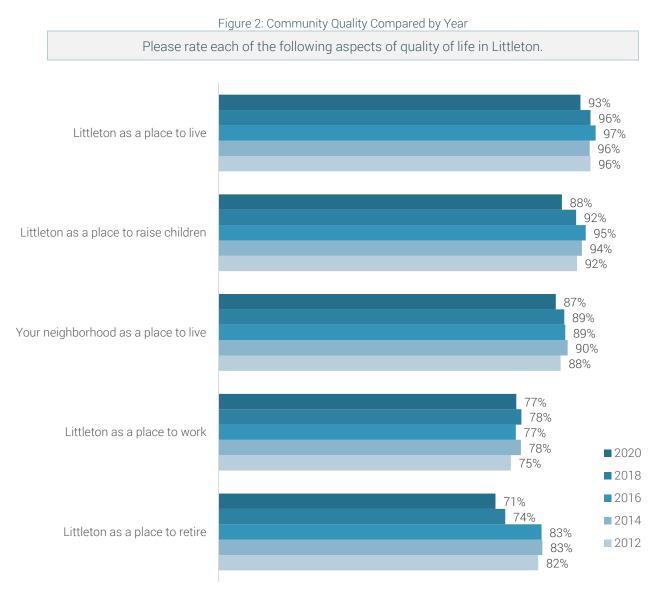

Aspects of Quality of Life

About 9 in 10 survey respondents gave positive marks to the overall quality of life in Littleton. This rating has remained stable since this question was first asked in 2012. Littleton residents gave much higher ratings to the overall quality of life in their community when compared to other communities across the nation and in the Front Range (see *Appendix D: Detailed Benchmark Comparisons*).

When evaluating other aspects of quality of life in the community, at least 7 in 10 residents gave favorable ratings. The city as a place to live (93% excellent or good), as a place to raise children (88%) and their neighborhood as a place to live (87%) received the highest evaluations. Generally, these ratings were similar to 2018.

Compared to other communities across the country and in Colorado's Front Range, Littleton residents tended to give ratings that were much higher for these aspects of quality of life.

Percent excellent or good

Living in Littleton

Survey respondents indicated their reasons for living in Littleton. The most commonly cited reasons included the location (81%), feeling safe (59%), and their neighborhoods (57%). These have been the top three reasons each year since the baseline survey in 2012. Less than half of respondents selected the other options presented in the question as reasons why they lived in Littleton. Four percent of respondents wrote in some "other" reason for living in Littleton that could not be categorized. These written-in responses can be found in *Appendix B: Verbatim Responses to Open-ended Survey Questions.* Overall, the proportion of respondents selecting each reason for living in the community has remained stable over time.

What are your reasons for living in Littleton? (Please select all that apply.)	2020	0010		Figure 3: Reasons for Living in Littleton Compared by Year							
mature your reasons for iming in Entreton. (i rease serest an that apply.)		2018	2016	2014	2012						
I like the location in general	81%	80%	82%	78%	78%						
I feel safe here	59%	61%	65%	65%	61%						
I like my neighborhood	57%	58%	59%	62%	58%

Other	4%	6%	3%	6%	11%						

"Parks, recreation and open space", "Proximity to work/work here" and "attending school in Littleton" were not response options included on the survey but were categories created from the "other" written-in responses.

Total may exceed 100% as respondents could choose more than one answer.

Community Attributes

Littleton residents rated their level of agreement with seven different statements that could potentially describe the community. Over half of respondents agreed with each statement. About 9 in 10 survey respondents agreed that the city was a safe community (93% strongly or somewhat agreed), that the city supported local businesses (88%), and had a low crime rate (88%). Respondents have been increasingly unlikely to agree that traffic flows well on city streets over time, declining 14 percentage points between 2012 and 2020. Additionally, fewer people in 2020 compared to 2018 agreed that Littleton had tight-knit neighborhoods.

Figure 4: Community Characteristics Compared by Year					
To what extent do you agree or disagree that each statement below describes the	2020	2018	2016	2014	2012
City of Littleton? (Percent strongly or somewhat agree)					
The city is a safe community	93%	96%	98%	98%	98%
The city supports local businesses	88%	91%	88%	89%	92%
The city offers the best schools	88%	88%	87%	88%	88%
The city has a low crime rate	87%	91%	94%	96%	94%
Littleton has tight-knit neighborhoods	75%	81%	83%	81%	82%
Littleton has an effective city government	73%	70%	79%	77%	NA
Traffic flows well on city streets	57%	60%	69%	69%	74%

Almost one-third of respondents selected "don't know" when assessing their level of agreement with the statements "the city offers the best schools." A full set of responses, including "don't know," can be found in *Appendix A: Responses to Survey Questions*.

Safety in Littleton

Overall, residents felt safe in Littleton. All or nearly all respondents indicated they felt safe in Downtown Littleton, in Littleton overall, and in their neighborhood during the day. About four in five residents felt somewhat or very safe in the other areas in Littleton and at night in the city. Evaluations of safety declined in 2020 compared to 2018 for safety in Littleton overall at night and in respondents' neighborhoods at night.

Where comparisons were available to other communities across the country and in the Front Range, Littleton residents' felt as safe or safer downtown during the day and at night. Safety ratings for neighborhoods at night were similar to the national average but much lower than the Front Range. Safety in parks, trails, natural open space areas was lower than both the national and Front Range averages.

Figure 5: Feelings of Safety in Littleton Compared by Year

Most Pressing Issues Facing the City

Survey respondents identified the three most pressing issues facing the City of Littleton in the next two years. As in past years, traffic topped the list of concerns and the proportion of respondents selecting traffic as a concern has increased significantly over the past eight years (from 29% in 2012 to 61% in 2020). Street maintenance (39%) and aging or outdated commercial areas (26%) also continued to be viewed as one of the top three issues facing the city. Further, significantly more residents in 2020 compared to 2018 selected street maintenance as one of their top three concerns. Less than 1 in 10 wrote in an "other" issue (these comments can be found in *Appendix B: Verbatim Responses to Open-ended Survey Questions*).

Figure 6: Most Pressing Issues in Littleton Compared by Year

Homeless population/homelessness	2%	NA	NA	NA	NA		
Parking (especially downtown)	1%	2%	NA	NA	NA		
Other	5%	8%	7%	8%	6%		

Figure 6: Most Pressing Issues in Littleton Compared by Year

"Parking (especially downtown)," "affordable housing/cost of living," "city services, infrastructure," "homeless

population/homelessness," and "too much growth (population, housing, development)" were not response options included on the survey but were categories created from the "other" written in responses.

Total may exceed 100% as respondents could choose up to three responses.

Promoting the Community

Residents identified their preferences for shopping in the community and for the local government to promote the community as a place to do business and spend money. About twothirds of survey respondents felt that it was important to shop locally in Littleton and about 7 in 10 said it was essential or very important for the city to promote itself as a location for business, shopping, recreation and entertainment. While ratings of the importance of shopping locally remained stable over time, the importance of promoting Littleton has been slowly declining over the last eight years.

City Services

Service delivery is a key function of any local government and enhances residents' quality of life. Residents evaluated their satisfaction with and the importance of a variety of city services, including transportation, the Bemis Library, the Littleton Museum, and the Police Department.

Overall Quality of Services

About 8 in 10 residents felt the overall quality of services in Littleton was excellent or good. When compared to the benchmarks, Littleton residents gave evaluations that were similar to residents in other communities across the nation and in Colorado's Front Range.

City Service Quality and Importance

Survey respondents assessed the quality and importance of 29 services provided by the City of Littleton. Overall, a majority of respondents gave favorable ratings to the quality of most services (see Figure 9). About 9 in 10 respondents gave excellent or good marks to various cultural and outdoor facilities such as the Hudson Gardens, the Carson Nature Center, the Littleton Museum, the Bemis Library, parks and trails, and South Platte Park. Residents felt less positively about traffic flow, snowplowing, and downtown parking.

Most service ratings remained stable from 2018 to 2020. However, decreases in quality ratings were observed for South Platt Park, public transit services, leaf and tire recycling, Household Haz Mat roundup, environmental sustainability, code enforcement, traffic flow and snow plowing. Looking across all survey years, evaluations of traffic flow and downtown parking have been decreasing steadily. The sharp decrease in snow plowing (a 28 percentage point drop between 2018 and 2020) could be due, in part, to the timing of the survey administration and a particularly snowy winter.

Where comparisons were available to other communities across the nation and in the Front Range, Littleton residents generally provided ratings that were higher than or similar to the benchmarks. The exception to these trends were ratings of traffic flow, snow plowing, and Downtown parking. Littleton residents gave lower ratings to these services than their national and Front Range counterparts.

Please rate the quality of each of the following in Littleton: (Percent excellent or	2020	2018	2016	2014	2012

Figure 9: Quality of Services Provided by Littleton Compared by Year

For many services, between 30% and 62% of respondents selected "don't know" when rating their quality. (The full set of responses, including "don't know," can be found in *Appendix A: Responses to Survey Questions*.)

The importance of the same 29 services was measured and a majority of Littleton residents felt most of the city-provided services were essential or very important. Police topped the list as the most important, followed by parks and trails, traffic flow, City management, and snow plowing. About 9 in 10 respondents felt each of these services was essential or very important. Leaf and tire recycling and online payment of fines and services were deemed relatively less important services, although about three in five respondents felt these were essential or very important services.

Importance ratings of all of the services tended to remain stable across survey administrations with two exceptions: online payment of fines and services was rated less important in 2020 compared to 2018 and snow plowing was rated more important.

Please rate how important, if at all, each is to you. (Percent essential or very	2020	2018	2016	2014	2012
important)

Figure 10: Importance of Services Provided by Littleton Compared by Year

Balancing Quality and Importance

Ratings of importance were compared to ratings of quality to help guide city staff and officials with decisions on future resource allocation. Most government services are considered to be important, but when competition for limited resources demands that efficiencies or cutbacks be instituted, it is wise not only to know what services are deemed most important to residents' quality of life, but which services among the most important are perceived to be delivered with the lowest quality. It is these services – more important services delivered with lower quality – to which attention needs to be paid first.

To identify the services perceived by residents to have relatively lower quality at the same time as relatively higher importance, all services were ranked from highest perceived quality to lowest perceived quality and from highest perceived importance to lowest perceived importance. Some services were in the top half of both lists (higher quality and higher importance); some were in the top half of one list but the bottom half of the other (higher quality and lower importance or lower quality and higher importance) and some services were in the bottom half of both lists.

Services were classified as "more important" if they were rated as "essential" or "very important" by 74% or more of respondents. Services were rated as "less important" if less than 74% of respondents rated them as "essential" or "very important." Services receiving quality ratings of "excellent" or "good" by 74% or more of respondents were considered of "higher quality" and those rated "excellent" or "good" by fewer than 74% were considered to be of "lower quality." This classification created four quadrants based on the ratings of quality and importance for each service. The services falling into each quadrant are listed in Figure 11 on the following page. The four figures on pages 19 to 22 display the services in each quadrant and the relative placement of each.

Typically, services that are rated relatively <u>higher in importance and lower in quality</u> (Figure 12) represent potential priority areas for improvement for the city. In 2020, these included: traffic flow, City management, economic development, environmental sustainability, public transit services, snow plowing, traffic enforcement, and traffic flow and (similar to what was seen in 2018, 2016, and 2014). Snow plowing and traffic flow were rated lower than the national benchmarks and declined in quality between 2018 and 2020. These two services might be areas city staff and officials wish to investigate or continue to make improvements.

<u>Higher importance and higher quality</u> services (Figure 13) included: appearance of city, Bemis Library, Buck Recreation Center, Littleton Police Department, open space areas, parks and trails, recreation opportunities, and South Platte Park.

<u>Lower importance and lower quality</u> services (Figure 14) included: code enforcement, Downtown parking, Household Haz Mat Roundup, job opportunities, Municipal Court, shopping opportunities, and leaf and tire recycling.

<u>Lower importance and higher quality</u> services (Figure 15) included: Carson Nature Center, Citysponsored special events, historic preservation, Hudson Gardens, Littleton Museum, online payments of fines and services, and Town Hall Arts Center. Figure 14: Services Rated Lower in Importance and Lower in Quality

Transportation in Littleton

The quality of nine aspects of transportation and travel was assessed on the survey. Light rail was positively evaluated by residents with more than 8 in 10 giving excellent or good ratings to the Downtown Littleton and Mineral Avenue light rail stations. This was similar to results from previous survey years. Fewer residents gave favorable reviews to street maintenance and ease of traveling by bus (RTD). Overall, ratings of transportation have been slowly declining for the past eight years.

The six aspects of transportation and travel in Littleton that could be compared to the national and Front Range benchmarks generally received ratings similar to or higher than the average.

Figure 16: Aspects of Transportation Compared by Year					
Please rate the following areas of transportation in Littleton. (Percent excellent or	2020	2018	2016	2014	2012
good)					
Downtown Littleton light rail station	83%	87%	89%	87%	91%
Mineral Avenue light rail station	80%	84%	87%		
Omnibus/Shopping Cart senior and disabled van service	79%	81%	79%	82%	80%
Ease of walking in the city	77%	79%	82%	84%	84%
Ease of traveling by bicycle	72%	78%	76%	76%	77%
Ease of traveling by light rail	72%	82%	83%	84%	89%
Ease of driving	67%	70%	75%	72%	80%
Ease of traveling by bus (RTD)	54%	58%	62%	66%	62%
Street maintenance	45%	47%	44%	56%	66%

Prior to 2016, "Downtown Littleton light rail station" and "Mineral Avenue light rail station" were worded as a single item on the survey, "Littleton light rail stations (Downtown and Mineral Avenue)".

When evaluating ease of travel by bus (RTD) and Omnibus/Shopping cart senior/disabled van service, more than half of respondents answered "don't know." The full set of responses, including "don't know," can be found in Appendix A: Responses to Survey Questions.

Bemis Public Library

Respondents were asked to evaluate seven aspects of the Bemis Public library and its services. Between one-third and one-half of respondents selected "don't know" when rating aspects of the library (see *Appendix A: Responses to Survey Questions* for a full set of responses including "don't know"). Of the respondents who had an opinion, at least 85% gave positive reviews to each library service. Almost all residents gave favorable reviews to the overall performance of the Bemis Library, library programs, and library services. Ratings for all aspects of the Bemis Public Library have remained stable over time, though internet and computer services declined slightly in 2020 compared to 2018. The overall quality of the library was rated much higher than those in other communities across the nation and similar to those in the Front Range.

Figure 17: Aspects of Bemis Public Library Compared by Year

(e.g., book holds, access databases, research, etc.)					
Materials and collections	85%	85%	84%	84%	81%

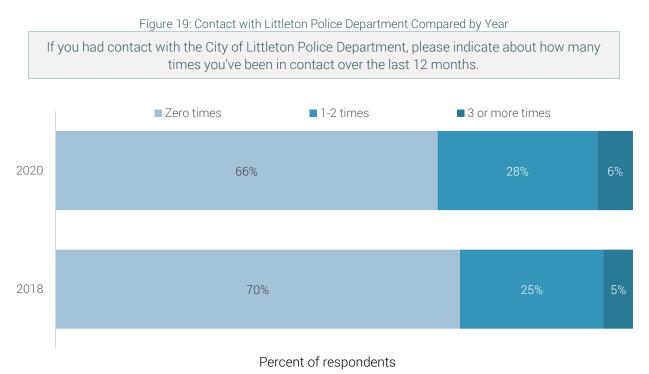

Littleton Museum

The quality of various services and programs provided at the Littleton Museum also was measured. At least half of respondents selected "don't know" when rating each aspect of the museum (see *Appendix A: Responses to Survey Questions* for a full set of responses including "don't know"). Of those who had an opinion about the museum, at least 86% gave excellent or good ratings to each aspect on the list. The overall performance of the Littleton Museum and museum programs received the highest marks. Compared to 2018, assessment of museum programs, Wednesday evening free summer programs, and the Museum research center improved in 2020.

Littleton Police Department

Starting with the 2018 survey, respondents reported on their contact with and feelings about the Littleton Police Department. About one-third of respondents said they had contact with the Police Department in the 12 months prior to the survey, which was similar to the 2018 contact rate.

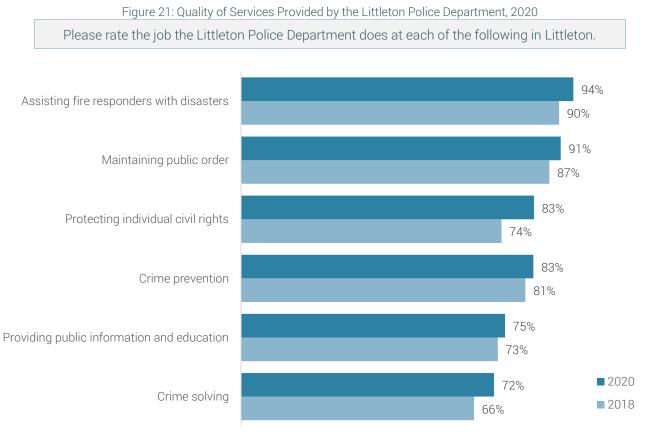

The one-third of residents who had been in contact with the Police Department evaluated their most recent interaction with a Police Department employee. Overall, at least 7 in 10 respondents gave positive reviews to their interactions with the Police Department employee, and, in most instances, ratings increased significantly between 2018 and 2020. More than 8 in 10 rated the employee's courteousness, fairness, knowledge, helpfulness, as well their overall impression as excellent or good.

Percent excellent or good

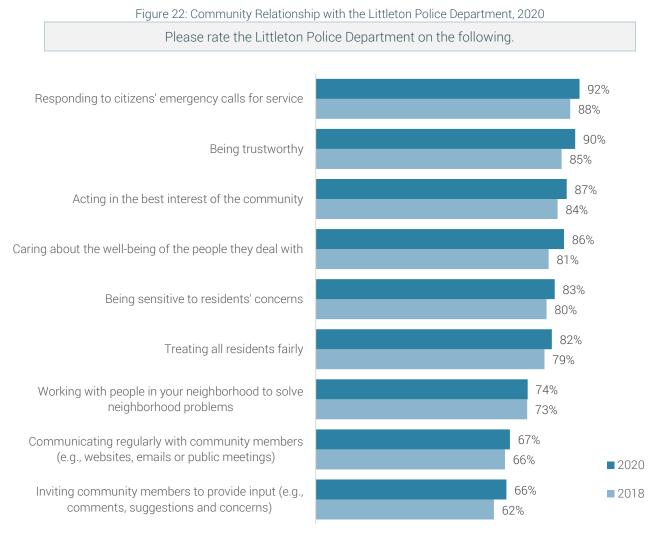

Asked only of those who reported having contact with a City of Littleton Police Department employee in the last 12 months. Almost half of respondents said "don't know" when evaluating the employee's use of force in fair and effective ways. The full set of responses, including "don't know," can be found in *Appendix A: Responses to Survey Questions*. All survey respondents assessed the quality of six specific services provided by the Littleton Police Department. However, between 30% and 63% of respondents said "don't know" when evaluating services provided by the Police Department. The full set of responses, including "don't know," can be found in *Appendix A: Responses to Survey Questions*. Of those who had an opinion, 9 in 10 gave excellent or good ratings to the Police Department assisting fire responders with disaster and maintaining public order. Crime prevention and protecting individual civil rights were rated favorably by about 8 in 10.

Only ratings of crime prevention could be compared to the benchmark and Littleton residents gave evaluations that were higher than residents in other communities across the nation and in the Front Range.

Survey respondents shared their opinions about the relationship the Police Department has with the community. Between 32% and 56% of respondents said "don't know" when evaluating this relationship (see *Appendix A: Responses to Survey Questions*). Of those who had an opinion, at least two-thirds of residents gave excellent or good reviews to each aspect. Residents felt most positively about the Police Department responding to citizens' emergency calls for service, being trustworthy, acting in the best interest of the community, and caring about the well-being of the people they deal with. Ratings increased between 2018 and 2020 in the areas of being trustworthy and caring about the well-being of the people they deal with.

Percent excellent or good

City Government

Littleton residents shared their perspectives of the City of Littleton government's performance as well as their priorities for the city council's goals and objectives. Learning whether residents' priorities for the community align with community leaders can guide the overall direction the city is taking.

Government Performance

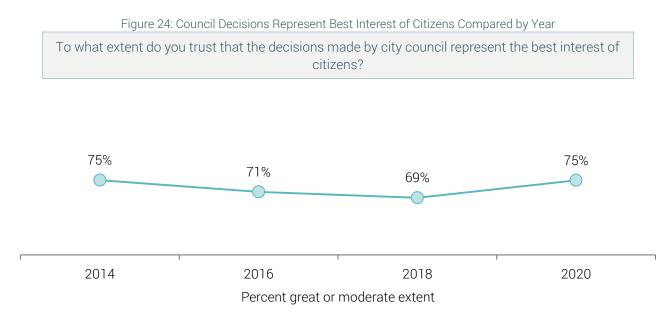

Seventeen aspects of city government performance were evaluated by survey respondents. Between one-quarter and one-half of residents selected "don't know" when assessing each of these aspects (see *Appendix A: Responses to Survey Questions* for a full set of responses including "don't know"). Of those who had an opinion, about half of respondents gave favorable ratings to each aspect of government performance. The direction the city is taking with respect to open space, trails and parks was the most favorably rated (82% excellent or good), followed by the quality of work provided by city employees (77%, an eight percentage point increase compared to 2018). The quality of work provided by City of Littleton employees also increased significantly since the last survey. Attracting companies to locate in Littleton decreased significantly from 2018.

Four of the 17 government performance ratings could be compared to the national benchmark. The job the city government does at welcoming citizen involvement received ratings higher than the national and Front Range averages while spending local tax dollars wisely, the value of services for the property taxes paid to Littleton, and the overall direction the city is taking were similar.

Figure 23: Littleton Government Performance Compared by Year

Responding to citizen complaints and concerns	46%	48%	44%	48%	57%		

Figure 23: Littleton Government Performance Compared by Year

In 2020, three-quarters of residents believed that city council decisions represent the best interest of citizens to a great or moderate extent, an increase over 2018 ratings.

Prioritizing City Council Goals and Objectives

Littleton residents evaluated the six elements of Envision Littleton, the City's Comprehensive Plan. Overall, ratings were split between more and same effort for most of the elements. The two exceptions involved protecting the cherished natural setting in harmony with new development and redevelopment and maintaining the integrity of its established neighborhoods and historic areas. In the case of the former, a majority of respondents felt the city should put more effort into it and in the case of the latter, a slight majority of respondents felt the city should put the same effort into it.

Envision Littleton is the City's Comprehensive Plan, which was a community driven	More	Same	Less	Total
process to plan for the next 20 years and was adopted by City Council in October 2019.	effort	effort	effort	
The unifying vision for 2040 includes the following six elements. Please indicate

compatibility with its surroundings				
Maintaining the integrity of its established neighborhoods and historic areas	40%	54%	5%	100%

Figure 25: Resident Priorities for Council Goals, 2020

Community Planning and Prioritization

In addition to providing feedback on Envision Littleton, residents shared their thoughts on the importance of potential projects in Littleton, priorities for the Police Department and a possible sales and use tax increase to help fund street improvements and other capital projects.

Potential Projects in Littleton

Littleton residents rated the importance of 10 potential projects in Littleton over the next five to eight years and then selected the one as the most important project out of the 10. As rated by residents, the most important projects were maintaining and improving city infrastructure (87% essential or very important, up 10 percentage points from 2018); reducing traffic congestion on city streets (74%, similar to 2018); and expanding programs for youth (67%, up five percentage points from 2018). Though rated generally lower in importance, expanding programs for seniors and for immigrants both increased eight percentage points in 2020. Redeveloping older neighborhoods and aging shopping centers both decreased seven percentage points from 2018.

Thinking about the next five to eight years, how important is each of the following	2020	2018	2016	2014	2012
potential projects in Littleton? (Percent essential or very important)					
Maintaining and improving city infrastructure (e.g., streets, sidewalks, buildings, etc.)	87%	77%	89%	NA	NA
Reducing traffic congestion on city streets	74%	75%	63%	57%	53%
Expanding programs for youth	67%	62%	67%	60%	63%
Redeveloping aging shopping centers	63%	70%	65%	71%	74%
Expanding programs for seniors	63%	55%	61%	57%	59%
Continuing preservation programs for historic buildings	55%	55%	56%	54%	47%
Partnering strategically and financially with the private sector in development	52%	56%	61%	NA	NA
Redeveloping older neighborhoods	48%	55%	53%	62%	66%
Expanding programs for immigrants	46%	38%	38%	32%	32%
Building new trails	45%	47%	47%	44%	43%

Figure 26: Potential Projects in Littleton Compared by Year

"Redeveloping aging shopping centers" was "taking an active role in redevelopment of aging shopping centers" in 2014 and "redeveloping older neighborhoods" was "taking an active role in redevelopment of older neighborhoods." Additionally, "partnering strategically and financially with the private sector in development" was different enough from the 2014 survey question wording that comparisons could not be made. Littleton residents selected one potential project as the most important for the city to focus on in the next five to eight years. Respondents most frequently chose maintaining and improving city infrastructure (25% selected as the single most important issue) and reducing traffic congestion on city streets (22%). Fewer respondents in 2020 compared to 2018 selected reducing traffic congestion as the most important project while all other potential projects were rated similarly to 2018.

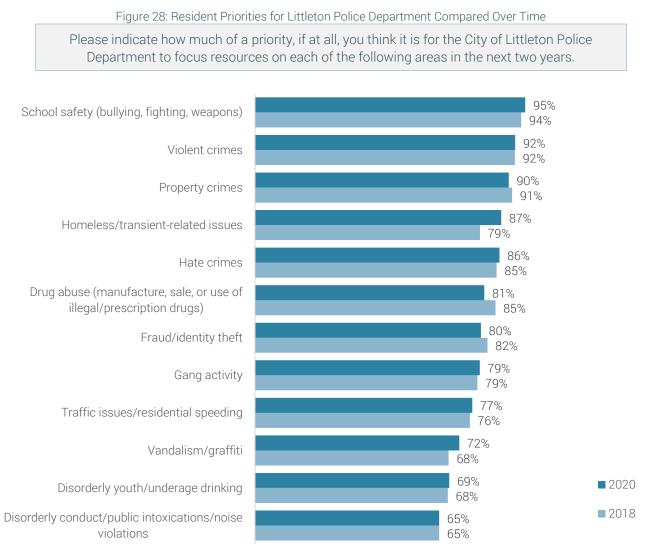

Figure 27: Most Important Potential Project Compared by Year						
Check the ONE circle for the item you think is the most important future project for	2020	2018	2016	2014	2012	
Littleton

Building new trails	5%	4%	3%	6%	6%	
Redeveloping older neighborhoods	5%	5%	8%	18%	18%	

Figure 27: Most Important Potential Project Compared by Year

"Maintaining and improving city infrastructure (e.g., streets, sidewalks, buildings, etc.)" was new to the 2016 survey. "Redeveloping aging shopping centers" was "taking an active role in redevelopment of aging shopping centers" in 2014 and "redeveloping older neighborhoods" was "taking an active role in redevelopment of older neighborhoods." Additionally, "partnering strategically and financially with the private sector in development" was different enough from the 2014 survey question wording that comparisons could not be made.

Police Department Priorities

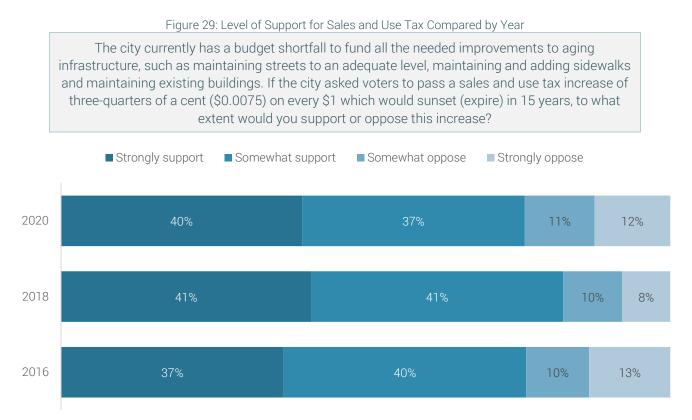

Survey respondents provided input to the Littleton Police Department on where to focus its resources in the next two years. Similar to 2018, the top-rated priorities of school safety, violent crimes, and property crimes. Homelessness/transient-related issues increased by eight percentage points from 2018 making it the 4th largest priority in 2020.

Percent rating as high or medium priority

Level of Support for Taxes

Survey respondents indicated their level of support for, or opposition to, changes to a sales and use tax and a lodging tax. As in 2016 and 2018, about three-quarters of residents supported a sales and use tax to fund improvements to aging infrastructure.

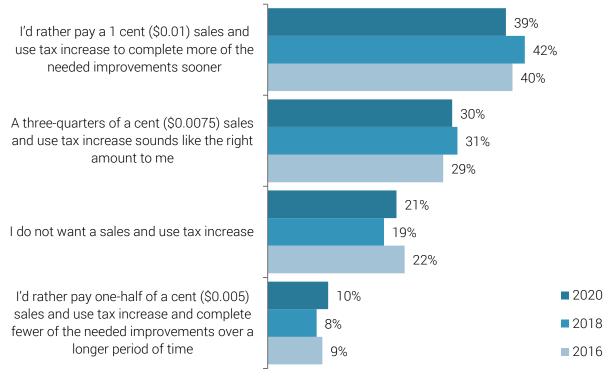

Percent of respondents

Respondents then were presented with different options for tax increases where funding was traded off with the timeliness of improvements. About 4 in 10 respondents preferred having a higher increase in the sales and use tax (one cent) to complete more of the needed improvements sooner and 3 in 10 preferred the originally suggested three-quarters of a cent sales and use tax increase. About 2 in 10 said they did not want an increase in the sales and use tax at all and 1 in 10 selected a one-half of a cent increase. These assessments were similar to those given in 2016 and 2018.

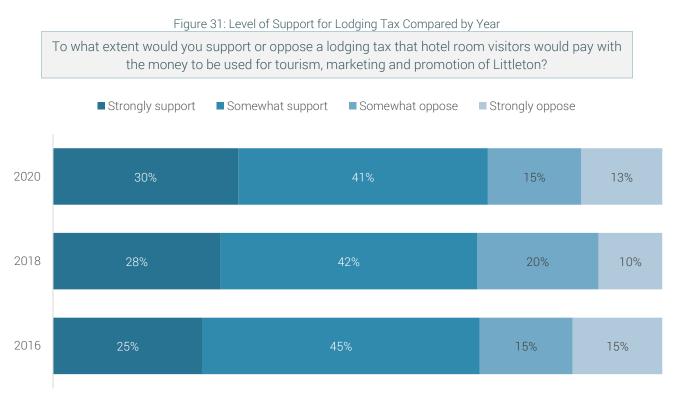

Figure 30: Preferences for Sales and Use Tax Amounts Compared by Year

A three-quarters of a cent sales and use tax increase will generate approximately \$9.1 million a year, which will help to cover a portion of the costs to make the needed improvements. However, a higher sales and use tax increase would allow more improvements to be made sooner, while a lower sales and use tax increase would allow fewer improvements over a longer period of time. Thinking about a potential sales and use tax increase, which of the following statements best describe your opinion?

Percent of respondents

Additionally, residents rated their level of support for a lodging tax that hotel room visitors would pay, the money from which would go towards tourism, marketing and overall promotion of Littleton. As in 2016 and 2018, about 70% of respondents in 2020 said that they would somewhat or strongly support the lodging tax, while about one-third opposed it.

Percent of respondents

Information Sources

To communicate better with residents, it is important for local government staff and officials to know where residents get information about the community. Survey respondents evaluated how frequently, if at all, they or other household members used various information sources. As in prior survey years, *The Littleton Report* was a major or minor source of information for the majority of respondents (70%), followed by the city's official website (68%). Nextdoor.com moved into third place at 54%, supplanting the *Littleton Independent* (47%), which had held the spot since 2014. Respondents reported increased use of Littleton's social media sites on Facebook and Twitter, as well as go2littleton.com for information about the city.

Yourhub	16%	19%	23%	28%	22%	

The question and scale wording changed from 2012 to 2014. In 2012, respondents were asked to indicate the number of times in the last 12 months they had used each source on a frequency scale. To enable comparisons over time, the 2012 percentages represent those who used a source at least once in the 12 months prior to the 2012 survey and the 2014 percentages represent those who indicated that each was a major or minor source of information.

In addition to assessing their use of information sources, residents rated how important it was that they receive different types of information from the city. Overall, at least half of respondents felt it was essential or very important that they receive most of the types of information presented in the question. Updates in street/traffic/road work, development projects, community planning, and city council decisions were among the most important kinds of information residents want to receive from the city. While demographics of the community was the least important type of information, its importance increased five percentage points in 2020 compared to 2018.

Figure 33: Importance of Receiving City Information Compared by Year

Appendix A: Responses to Survey Questions

The following pages contain a complete set of responses to each question on the survey. The percent of respondents giving a particular response is shown followed by the number of respondents. When a question includes a "don't know" response option, the first table displays the results excluding the "don't know" responses and the second table displays the results with the "don't know."

Table 14. Question 1 without don't know responses

Appendix B: Verbatim Responses to Openended Survey Questions

All write-in responses are presented below verbatim, meaning spelling and grammar has not been corrected. Comments are sorted alphabetically.

Question 2. What are your reasons for living in Littleton? (Please select all that apply.) ("Other" responses.)

- Always something going on.
- Always wanted to move here!
- Beauty of the setting.
- Climate.
- Climates great.
- Close to light rail.
- Close to my Church.
- Downtown light rail.
- Historic, traditional small-town USA values, fun, pretty.
- Less high density until now.
- Light rail use.
- Light rail/rtd.
- Love Downtown Littleton.
- No BSL.
- Non smoking/ drug apt.
- Quality retirement place.
- Ready to retire here.
- Retirement dwelling of choice.
- Weather.

Question 4. Please identify <u>up to three</u> issues you believe are the most pressing issues facing Littleton in the next two years. ("Other" responses).

- Diversity
- Diversity within the general public. Diversity in schools, meaning students of varying cultures entering the schools.
- Flooding.
- Handicap accessible transport taken to evening events.
- Highest sex offender density- other cities park sex offenders in N/E Littleton. It's as if it's zon sex rehab!
- Illegal immigration.
- Involvement of City Council w/ locals. Address homeless people.
- Lack of shipping DT.
- Lps finances need to be assessed & new funding is needed.
- Maintaining small town character.

- Maintaining what's left of agricultural areas.
- Making older neighborhoods more handicapped accessible (i.e. wider sidewalks and curb cuts and plants/bushes growing over sidewalks).
- Overall transition fully car centric to blended modalities.
- Please do not develop open space Santa Fe Mineral intersection!
- Property taxes!!!
- Spending.
- Taxing at appropriate level.
- The wood is moving south.
- To many retirees- need younger population.
- Trailmark shouldn't be in the city of Littleton!
- vastly reducing car dependency & gun control

Question 25: Other topics you would like to receive information about:

- 10-15yr city growth/ development.
- Actually city budget of how the money is actually spent. (Actually dollar amounts) so I can see what the city takes as a priority.
- ADA updates/ improvements.
- Always transparency.
- As long as the information is available on city website where I can access as needed.
- As long as trash pick up is every do of the week, Littleton will look slummy. I think the city should move to the Denver model of its' own collection and one day a week per area of town.
- Attracting more businesses, FEWER apartments. Residents in apartments use more city resources but pay a fraction of property tax that pays for those services. Homeowners are unfairly bearing the cost.
- Cars keep getting broke into at night!
- City officials must be aware of the incredibly strong positive correlation between the number of guns in an area and the rate of gun violence, including accidents and suicides. Therefore, what is the city doing to reduce the number of firearms in Littleton?
- Climate change in our community- How can we stop corporations that are controlling via their power that is damaging our earth. Littleton should be active.
- Crime prevention, plan to deal with transient and homeless crime and destruction of property.
- Dates when street cleaning occurs.
- Following up on proper registration stickers on plates on streets & in neighborhood parking. Improve license plates in vehicle back & front windows on streets.
- Future development of downtown.
- Garbage companies are reducing the number of yard bags they take. Littleton touts itself as a tree city. Help its citizens dispose of leaf bags.
- Getting more and better restaurants in the area and not the same chain options. We should have an area like Avanti, Stanley Marketplace or Denver Central Market.
- Hello, Bemis Library? I go to Arapahoe Libraries all over town! I didn't even know it existed...

- Historic preservation, trails & parks.
- Home sale statistics.
- Homeless/ illegal immigrants/ mentally ill/ druggies.
- How to fund the city without new taxes? What is happening at the corner of Federal and Bellview?
- How to get subdivision roads paved or improved. They seem to have very low priority.
- I mostly just care about the trails tbh
- Light rail cut & access to mineral & Littleton station (quality has declined).
- Like Littleton reporter (reed entirely).
- Mail nothing extra use funds for necessities see online.
- N/A.
- Neighborhood Initiatives/ Events.
- Nothing.
- Our answers reflect a communication problem with the city and police department. A large amount of information is not available in one place.
- Picking up items that cannot be recycled or put out with the trash oops!
- Plans for the horrible mineral row in intersections.
- Preservation of open spaces.
- Public asset conditions (streets.)
- Public camping by homeless.
- Recycling.
- Regulation of AIR bnb.
- Security in the city, stop criminality in school. Stop smoking at R&D stops, outside business. Stop littering on the streets with fines. Stop using cell phones when they cross streets with fines [?] on the street on neighborhood.
- Senior programs.
- Sex offenders- littleton has extreme high density.
- Snow removal on public streets.
- Social opportunities.
- Solution to parking a mineral LR Sta Ensor property development. Results of traffic study.
- Status of historic sites.
- Steps being taken to improve govt department's efficiency and how they are working to reduce costs inside the city.
- Summary of calls with issues & updates. Maybe there is communication but I don't get it. For example: called about traffic & road maintenance- status? Am I the only one who called?
- Taking trailmark off as part of the city of Littleton.
- The amount of money that city council members are paid under the table by developers.
- The Grove.
- The number and types of tickets issued on Santa Fe drive.
- Transparent use of budget & incomes collected & distribution.
- Wireless telecom plans for small cells.

Appendix C: Comparisons of Select Survey Results by Respondent Subgroups

For ease of comparison between subgroups, most of the questions show summarized responses for only the proportion of respondents giving a positive answer; for example, the percent of respondents who strongly or somewhat supported a sales and use tax or percent of respondents who rated an item as excellent or good.

The subgroup comparison tables contain the cross tabulations of survey questions by selected respondent characteristics. Chi-square or ANOVA tests of significance were applied to these breakdowns of survey questions. A "p-value" of 0.05 or less indicates that there is less than a 5% probability that differences observed between groups are due to chance; or in other words, a greater than 95% probability that the differences observed in the selected categories of the sample represent "real" differences among those populations.

For each pair of subgroups that has a statistically significant difference, an uppercase letter denoting significance is shown in the category with the larger column proportion. The letter denotes the category with the smaller column proportion from which it is statistically different. Differences were marked as statistically significant if the probability that the differences were due to chance alone were less than 5%. Categories were not used in comparisons when a column proportion was equal to zero or one.

Items that have no uppercase letter denotation in their column and that are also not referred to in any other column were not statistically different.

For example, in Table 64 on page 69, 93% of respondents who had lived in Littleton for more than 10 years (B) rated the city as a place to raise children as excellent or good. This proportion of respondents (B) was statistically significantly higher than those who had lived in Littleton for 10 years or less (A). In another example, in Table 66 on page 69, those who had lived in Littleton for 10 years or less (A) rated the amount of Downtown parking in Littleton significantly higher than who had lived in Littleton for more than 10 years (B).

Select Questions Compared by Length of Residency

- Where ratings were statistically different between longer- and shorter-term residents, those living in the city for more than 10 years gave higher evaluations to various aspects of quality of life. Longer-tenured residents also tended to place higher priority on the focus areas for the Littleton Police Department.
- Residents who had lived in Littleton for 10 years or less gave higher evaluations than those who lived there longer for some aspects of the city government's performance, including elected officials' consideration of what people think, Littleton as an example of how best to provide services, running the government in the best interest of residents, and being transparent and accountable to the public.

lease rate each of the following aspects of quality of life in Littleton.	Length of residency		Overall
(Percent excellent or good)	10 years or less	More than 10 years	
	(A)	(B)	
Littleton as a place to live	92%	95%	93%
Your neighborhood as a place to live	84%	89%	87%
Littleton as a place to raise children	82%	93%	88%
		A

Select Questions Compared by Council District

- Few differences were found by Council District. Where differences were found, residents living in District 2 tended to give lower assessments to aspects of quality of life and the Police Department than those living in other Districts.
- Residents in District 4 tended to give lower ratings to services and amenities (e.g., public transit, Littleton Museum, Buck Recreation Center) than those in District 1.

Appendix D: Detailed Benchmark Comparisons

Comparing Littleton's Results to the Benchmarking Database

Jurisdictions use the comparative information provided by benchmarks to help interpret their own resident survey results, to create or revise community plans, to evaluate the success of policy or budget decisions and to measure local government performance. Taking the pulse of the community has little meaning without knowing what pulse rate is too high and what is too low. When surveys of service satisfaction turn up "good" citizen evaluations, it is necessary to know how others rate their services to understand if "good" is good enough or if most other communities are "excellent." Furthermore, in the absence of national or peer community comparisons, a jurisdiction is left with comparing its police protection rating to its street maintenance rating. That comparison is unfair as street maintenance always gets lower ratings than police protection. More illuminating is how residents' ratings of police service compare to opinions about police service in other communities and to resident ratings over time.

A police department that provides the fastest and most efficient service – one that closes most of its cases, solves most of its crimes, and keeps the crime rate low – still has a problem to fix if the residents in the city rate police services lower than ratings given by residents in other cities with objectively "worse" departments. Benchmark data can help that police department – or any city department – to understand how well citizens think it is doing.

NRC has innovated a method for quantitatively integrating the results of surveys that we have conducted with those that others have conducted. These integration methods have been described thoroughly *in Public Administration Review, Journal of Policy Analysis and Management*, and in NRC's first book on conducting and using citizen surveys, *Citizen Surveys: how to do them, how to use them, what they mean*, published by the International City/County Management Association (ICMA). Scholars who specialize in the analysis of citizen surveys regularly have relied on NRC's work¹. The method described in those publications is refined regularly and statistically tested on a growing number of citizen surveys in NRC's proprietary databases.

Jurisdictions in NRC's benchmark database are distributed geographically across the country and range from small to large in population size. Comparisons may be made to all jurisdictions in the database or to a subset of jurisdictions (within a given region or population category such as Front Range jurisdictions), as in this report. Despite the differences in jurisdiction characteristics, all are in the business of providing local government services to residents. Though individual

¹ Kelly, J. & Swindell, D. (2002). Service quality variation across urban space: First steps towards a model of citizen satisfaction, *Journal of Urban Affairs*, 24, 271-288.

Van Ryzin, G., Muzzio, D., Immerwahr, S., Gulick, L. & Martinez, E. (2004). Drivers and consequences of citizen satisfaction: An application of the American Customer Satisfaction Index Model to New York City, *Public Administration Review*, 64, 331-341.

jurisdiction circumstances, resources, and practices vary, the objective in every community is to provide services that are so timely, tailored, and effective that residents conclude the services are of the highest quality. High ratings in any jurisdiction, like SAT scores in any teen household, bring pride and a sense of accomplishment.

While benchmarks help set the basis for evaluation, resident opinion should be used in conjunction with other sources of data about budget, population demographics, personnel, and politics to help managers know how to respond to comparative results.

Interpreting the Results

Ratings are compared when similar questions are included in NRC's database, and there are at least five communities in which the question was asked. Where comparisons are available, three numbers are provided in the table. The first column is Littleton's "percent positive" rating (e.g., "excellent" or "good," "strongly agree" or "somewhat agree," "very safe" or "somewhat safe"). The second column is the rank assigned to Littleton's rating among communities where a similar question was asked. The third column is the number of communities that asked a similar question. The fourth column shows the comparison of Littleton's rating to the benchmark.

Where comparisons for quality ratings were available, the City of Littleton's results were generally noted as being "higher" than the benchmark, "lower" than the benchmark or "similar" to the benchmark. In instances where ratings are considerably higher or lower than the benchmark, these ratings have been further demarcated by the attribute of "much," (for example, "much lower" or "much higher"). These labels come from a statistical comparison of Littleton's rating to the benchmark where a rating is considered "similar" if it is within the margin of error; "higher" or "lower" if the difference between Littleton's rating and the benchmark is greater than, but less than twice, the margin of error; and "much higher" or "much lower" if the difference between Littleton's rating and the benchmark is more than twice the margin of error.

Appendix E: Survey Methodology

The City of Littleton 2020 Resident Survey was developed to provide an accurate assessment and interpretation of resident opinion about important community issues. Results offer insight into residents' perspectives about the quality of life in the community and local government performance and are intended to help city leaders with strategic planning and communication with residents. The City of Littleton funded this research. Please contact Kelli Narde at the City of Littleton at (303) 734-8400 if you have any questions about the survey.

Survey Validity

The question of survey validity has two parts: 1) how can a jurisdiction be confident that the results from those who completed the questionnaire are representative of the results that would have been obtained had the survey been administered to the entire population? and 2) how closely do the perspectives recorded on the survey reflect what residents really believe or do?

To answer the first question, the best survey research practices were used for the resources spent to ensure that the results from the survey respondents reflect the opinions of residents in the entire jurisdiction. These practices include:

- Using a mail-out/mail-back methodology, which typically gets a higher response rate than phone for the same dollars spent. A higher response rate lessens the worry that those who did not respond are different than those who did respond.
- Selecting households at random within the jurisdiction to receive the survey. A random selection ensures that the households selected to receive the survey are similar to the entire population. A non-random sample may only include households from one geographic area, or from households of only one type.
- Selecting the respondent within the household using an unbiased sampling procedure; in this case, the "birthday method." The cover letter included an instruction requesting that the respondent in the household be the adult (18 years old or older) who most recently had a birthday, irrespective of year of birth.
- Contacting potential respondents three times to encourage response from people who may have different opinions or habits than those who would respond with only a single prompt.
- Soliciting response on jurisdiction letterhead signed by the highest ranking elected official or staff member, thus appealing to the recipients' sense of civic responsibility.
- Providing a self-addressed, postage-paid return envelope.
- Using the most recent available information about the characteristics of jurisdiction residents to weight the data to reflect the demographics of the population.

The answer to the second question about how closely the perspectives recorded on the survey reflect what residents really believe or do is more complex. Resident responses to surveys are influenced by a variety of factors. For questions about service quality, residents' expectations for service quality play a role as well as the "objective" quality of the service provided, the way the

resident perceives the entire community (that is, the context in which the service is provided), the scale on which the resident is asked to record his or her opinion and, of course, the opinion, itself, that a resident holds about the service. Similarly a resident's report of certain behaviors is colored by what he or she believes is the socially desirable response (e.g., reporting tolerant behaviors toward "oppressed groups," likelihood of voting a tax increase for services to poor people, use of alternative modes of travel to work besides the single occupancy vehicle), his or her memory of the actual behavior (if it is not a question speculating about future actions, like a vote), his or her confidence that he or she can be honest without suffering any negative consequences (thus the need for anonymity) as well as the actual behavior itself.

How close survey results come to recording the way a person really feels or behaves often is measured by the coincidence of reported behavior with observed current behavior (e.g., driving habits), reported intentions to behave with observed future behavior (e.g., voting choices) or reported opinions about current community quality with objective characteristics of the community (e.g., feelings of safety correlated with rates of crime). There is a body of scientific literature that has investigated the relationship between reported behaviors and actual behaviors. Well-conducted surveys, by and large, do capture true respondent behaviors or intentions to act with great accuracy. Predictions of voting outcomes tend to be quite accurate using survey research, as are predictions of reported behaviors that are not about highly sensitive issues (e.g., family abuse or other illegal or morally sanctioned activities). For self-reports about highly sensitive issues, statistical adjustments can be made to correct for the respondents' tendency to report what they think the "correct" response should be.

Research on the correlation of resident opinion about service quality and "objective" ratings of service quality tend to be ambiguous, some showing stronger relationships than others. NRC's own research has demonstrated that residents who report the lowest ratings of street repair live in communities with objectively worse street conditions than those who report high ratings of street repair (based on road quality, delay in street repair, number of road repair employees). Similarly, the lowest rated fire services appear to be "objectively" worse than the highest rated fire services (expenditures per capita, response time, "professional" status of firefighters, breadth of services and training provided). Whether or not some research confirms the relationship between what residents think about a community and what can be seen "objectively" in a community, NRC has argued that resident opinion is a perspective that cannot be ignored by government administrators. NRC principals have written, "If you collect trash three times a day but residents think that your trash haul is lousy, you still have a problem."

Developing the Questionnaire

General resident surveys, such as this one, ask recipients for their perspectives on policy issues facing the city and their assessment of city service delivery, the quality of life in the city and their use of city amenities. The 2020 survey instrument for Littleton was developed through an iterative process that started with the 2018 resident survey. Some questions were eliminated and approximately one page of new questions was created. All questions were prioritized and an optimal composition of topics and questions were selected. Through this iterative process between city staff and NRC staff, a final six-page questionnaire was created.

Selecting Survey Recipients

"Sampling" refers to the method by which survey recipients are chosen. The "sample" refers to all those who were given a chance to participate in the survey. All households located in the city boundaries were eligible for the survey. Because local governments generally do not have inclusive lists of all the residences in the jurisdiction (tax assessor and utility billing databases often omit rental units), lists from the United States Postal Service (USPS), updated every three months, usually provide the best representation of all households in a specific geographic location. A list of all households within the zip codes serving Littleton was purchased from Go-Dog Direct based on updated listings from the USPS.

A larger list than needed was selected so that a process referred to as "geocoding" could be used to eliminate addresses from the list that were outside the city's boundaries. Geocoding is a computerized process in which addresses are compared to electronically mapped boundaries and coded as inside or outside desired boundaries; in this case, within the City of Littleton. All addresses determined to be outside the study boundaries were eliminated from the list. To permit comparisons of the survey results by geographic area of residence, the city council district also was identified for each selected household. A random selection was made of the remaining addresses to create a mailing list of 3,000 addresses. Attached units were oversampled to compensate for detached unit residents' tendency to return surveys at a higher rate.

An individual within each household was randomly selected to complete the survey using the birthday method. The birthday method selects a person within the household by asking the "person whose birthday has most recently passed" to complete the questionnaire. The underlying assumption in this method is that day of birth has no relationship to the way people respond to surveys. This instruction was contained in the cover letter accompanying the questionnaire.

Mail Survey Administration and Response

Each selected household was contacted three times. Households were first mailed a prenotification announcement, informing the household members that they had been selected to participate in the Littleton survey. Approximately one week after mailing the pre-notification, each household was mailed a survey containing a cover letter signed by the Mayor enlisting participation. A postage-paid return envelope in which the survey recipients could return the completed questionnaire to NRC was provided. A second survey packet, scheduled to arrive one week after the first survey, was the final contact. This second mailing packet asked those who had not completed the survey to do so and those who had already done so to refrain from turning in another survey. Additionally, the cover letters included a URL to an online version of the survey where respondents could complete it, if they preferred.

The mailings were sent beginning January 6, 2020 and completed surveys were collected over five weeks. About 6% of the 3,000 surveys mailed were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. Of the remaining 2,819 households, 703 completed the survey (including 103 via the web), providing an overall response rate of 25%. Additionally, response rates for each Council District and ranged from 20% to 32%.

The response rates were calculated using AAPOR's response rate #2² for mailed surveys of unnamed persons. The response rates appear in Table 169.

Table 169: Survey Respo	onse Rates by	Council Distri	Cl		
	District 1	District 2	District 3	District 4	Overall
Total sample used	862	764	621	753	3,000

Response rate: (I+P)/(I+P) + (R+NC+O) + (UH+UO)	24%	20%	32%	25%	25%

Table 169: Survey Response Rates by Council District

Confidence Interval and Margin of Error

It is customary to describe the precision of estimates made from surveys by a "level of confidence" and accompanying "confidence interval" (or margin of error). A traditional level of confidence, and the one used for this report, is 95%. The 95% confidence interval quantifies the sampling error or imprecision of the survey results because some residents' opinions are relied on to estimate all residents' opinions. The margin of error for the City of Littleton 2020 Resident Survey is no greater than plus or minus four percentage points around any given percent reported for all respondents (703 completed surveys).

A 95% confidence interval indicates that for every 100 random samples of this many residents, 95 of the confidence intervals created will include the "true" population response. This theory is applied in practice to mean that the "true" perspective of the target population lies within the confidence interval created for a single survey. For example, if 72% of residents rate a service as "excellent" or "good," then the 4% margin of error (for the 95% confidence interval) indicates that the range of likely responses for the entire jurisdiction is between 68% and 76%. This source of error is called sampling error. In addition to sampling error, other sources of error may affect any survey, including the non-response of residents with opinions different from survey responders.

For subgroups of responses (e.g., gender or age), the margin of error increases because the sample size for the subgroup is smaller. For subgroups of approximately 100 respondents, the margin of error is plus or minus 10 percentage points.

² See AAPOR's Standard Definitions here: <u>http://www.aapor.org/Standards-Ethics/Standard-Definitions-(1).aspx</u> for more information

Survey Processing (Data Entry)

Mailed surveys were submitted via postage-paid business reply envelopes. Once received, staff assigned a unique identification number to each questionnaire. Additionally, each survey was reviewed and "cleaned" as necessary. For example, a question may have asked a respondent to pick two items out of a list of five, but the respondent checked three; staff would choose randomly two of the three selected items to be coded in the dataset.

Once cleaned and numbered, all surveys were entered into an electronic dataset. This dataset was subject to a data entry protocol of "key and verify," in which survey data were entered twice into an electronic dataset and then compared. Discrepancies were evaluated against the original survey form and corrected. Range checks as well as other forms of quality control were also performed.

NRC used Survey Gizmo, a web-based survey and analytics platform, to collect the online survey data. Use of an online system means all collected data are entered into the dataset when the respondents submit the surveys. Skip patterns are programmed into the system so respondents are automatically "skipped" to the appropriate question based on the individual responses being given. Online programming also allows for more rigid control of the data format, making extensive data cleaning unnecessary.

A series of quality control checks were also performed in order to ensure the integrity of the web data. Steps may include and not be limited to reviewing the data for clusters of repeat IP addresses and time stamps (indicating duplicate responses) and removing empty submissions (questionnaires submitted with no questions answered). The online survey data were downloaded, cleaned as necessary and appended to the mail survey data to create a final, complete dataset.

Weighting the Data

The demographic characteristics of the survey respondents were compared to those of the 2010 Census and the American Community Survey 2017 5-year Estimates. The primary objective of weighting survey data is to make the survey respondents reflective of the larger population of the community. The variables used for weighting were respondent gender, age, tenure (rent or own), housing unit type (attached or detached), and ethnicity. No adjustments were made for design effects. The results of the weighting scheme are presented in the table on the following page.

Characteristic	Population Norm ¹	Unweighted Data	Weighted Data
Housing			
Rent home	39%	21%	38%
Own home	61%	79%	62%
Detached unit ²	54%	64%	54%
Attached unit ²	46%	36%	46%
Race and Ethnicity			
White	91%	92%	87%
Not white	9%	8%	13%
Not Hispanic	90%	96%	90%
Hispanic	10%	4%	10%
Sex and Age			
Female	52%	59%	52%
Male	48%	41%	48%
18-34 years of age	26%	9%	25%
35-54 years of age	37%	26%	37%
55+ years of age	36%	66%	38%
Females 18-34	13%	5%	15%
Females 35-54	19%	15%	19%
Females 55+	20%	38%	18%
Males 18-34	14%	3%	11%
Males 35-54	18%	10%	18%
Males 55+	16%	28%	19%
Council District ³			
District 1	26%	26%	26%
District 2	24%	20%	25%
District 3	23%	27%	25%
District 4	27%	26%	24%

Table 170: Littleton	Resident Survey	Weighting Table

¹ Source: 2010 Census

² ACS 2017 5-year estimates

³ Source: List of randomly selected households identified as in the City boundaries, purchased November 2019.

Analyzing the Data

The electronic dataset was analyzed by NRC staff using IBM's Statistical Package for the Social Sciences (SPSS). For the most part, frequency distributions or the percent positive (i.e., "excellent" or "good," "strongly agree" or "somewhat agree," "essential" or "very important") are presented in the body of the report. On many of the questions in the survey, respondents could give an answer of "don't know." The proportion of respondents giving this reply is shown in the full set of responses included in *Appendix A: Responses to Survey Questions* and is discussed in the body of this report if it is 30% or greater. However, these responses have been removed from the analyses presented in the body of the report, unless otherwise indicated. In other words, the majority of the tables and graphs in the body of the report display the responses from respondents who had an opinion about a specific item. When a table for a question that only permitted a single response does not total to exactly 100%, it is due to the common practice of percentages being rounded to the nearest whole number.

Appendix F: Survey Materials

The following pages contain the mailing materials and survey instrument for the 2020 Resident Survey.

Dear Littleton Resident,

It won't take much of your time to make a big difference!

Your household has been randomly selected to participate in a survey about the City of Littleton. Your survey will arrive in a few days.

Thank you for helping create a better community!

Sincerely,

Jerry Valdes

Jerry Valdes, Mayor City of Littleton

Dear Littleton Resident,

It won't take much of your time to make a big difference!

Your household has been randomly selected to participate in a survey about the City of Littleton. Your survey will arrive in a few days.

Thank you for helping create a better community!

Sincerely,

Jerry Valdes

Jerry Valdes, Mayor City of Littleton

Dear Littleton Resident,

It won't take much of your time to make a big difference!

Your household has been randomly selected to participate in a survey about the City of Littleton. Your survey will arrive in a few days.

Thank you for helping create a better community!

Dear City of Littleton Resident:

Please help us shape the future of Littleton! You have been selected at random to participate in the 2020 Littleton Resident Survey.

Please take a few minutes to fill out the enclosed survey. Your participation in this survey is very important – especially since your household is one of only a small number of households being surveyed.

City leaders have used previous survey results to make a number of improvements in the community. We're investing more money in street maintenance, adopted the Envision Littleton Comprehensive Plan and first-ever Transportation Master Plan, and we've made great strides in promoting Littleton as an attractive community for visitors, events, businesses, and more.

A few things to remember:

- Your responses are completely anonymous.
- In order to hear from a diverse group of residents, the adult 18 years or older in your household who most recently had a birthday should complete this survey.
- You may return the survey by mail in the enclosed postage-paid envelope, or you can complete the survey online at (please be sure to type the address exactly as it appears here):

If you have any questions about this survey, please contact Kelli Narde, Director of Communications, at (303) 795-3733.

Please help us to keep Littleton a great place to live, work and play! Thank you for your help and participation.

Sincerely,

eny Valdes

Jerry Valdes Mayor

Dear City of Littleton Resident:

Here's a second chance if you haven't already responded to the 2020 Littleton Resident Survey! (If you completed it and sent it back, we thank you for your time and ask you to recycle this survey. Please do not respond twice.) Please help us shape the future of Littleton! You have been selected at random to participate in the 2020 Littleton Resident Survey.

Please take a few minutes to fill out the enclosed survey. Your participation in this survey is very important – especially since your household is one of only a small number of households being surveyed.

City leaders have used previous survey results to make a number of improvements in the community. We're investing more money in street maintenance, adopted the Envision Littleton Comprehensive Plan and first-ever Transportation Master Plan, and we've made great strides in promoting Littleton as an attractive community for visitors, events, businesses, and more.

A few things to remember:

- Your responses are completely anonymous.
- In order to hear from a diverse group of residents, the adult 18 years or older in your household who most recently had a birthday should complete this survey.
- You may return the survey by mail in the enclosed postage-paid envelope, or you can complete the survey online at (please be sure to type the address exactly as it appears here):

If you have any questions about this survey, please contact Kelli Narde, Director of Communications, at (303) 795-3733.

Please help us to keep Littleton a great place to live, work and play! Thank you for your help and participation.

Sincerely,

Peny Valdes

Jerry Valdes Mayor

Please have an adult age 18 or older that most recently had a birthday complete this survey. Year of birth plays no role in the selection. Your responses are anonymous and will be reported in group form only. Thank you for completing this survey!

Please rate each of the following aspects of quality of life in Littleton. 1.

	Excellent	<u>Good</u>	Fair	Poor	<u>Don't know</u>
Littleton as a place to live	1	2	3	4	5
Your neighborhood as a place to live	1	2	3	4	5
Littleton as a place to raise children	1	2	3	4	5
Littleton as a place to retire	1	2	3	4	5
Littleton as a place to work	1	2	3	4	5
Overall quality of life in Littleton	1	2	3	4	5

2. What are your reasons for living in Littleton? (Please select all that apply.)

- **O** I feel safe here **O** I like the school my children attend
- O Sense of community

O Other_____

- **O** Housing and rental rates are affordable **O** I like living in a college town
- **O** I like the location in general **O** Cost of living is affordable
- **O** I like my neighborhood
- **O** I've always lived here
- **O** I have friends and family in the area

3. To what extent do you agree or disagree that each statement below describes the City of Littleton?

The city is a safe community	Strongly <u>agree</u> 1	Somewhat <u>agree</u> 2	Somewhat <u>disagree</u> 3	Strongly <u>disagree</u> 4	Don't <u>know</u> 5
The city has a low crime rate		2	3	4	5
The city supports local businesses		2	3	4	5
Littleton has tight-knit neighborhoods	1	2	3	4	5
The city offers the best schools	1	2	3	4	5
Littleton has an effective city government	1	2	3	4	5
Traffic flows well on city streets		2	3	4	5

4. Please identify up to three issues you believe are the most pressing issues facing Littleton in the next two years.

${f O}$ Job growth	O Street maintenance	O Alternative energy sources
• Traffic in general	O Aging or outdated commercial areas	O Open space
O Business retention	O Leisure activities	O Maintenance of city properties and buildings
O Neighborhoods	O Crime reduction	O Other:
O Trails	O Traffic light synchronization	
O Community image	O Business attraction	

5. Please tell us how safe you feel in each of the following areas in Littleton.

	Very <u>safe</u>	Somewhat <u>safe</u>	Somewhat <u>unsafe</u>	Very <u>unsafe</u>	Don't <u>know</u>
Downtown Littleton during the day	1	2	3	4	5
Downtown Littleton at night	1	2	3	4	5
Your neighborhood during the day	1	2	3	4	5
Your neighborhood at night	1	2	3	4	5
Parks, trails, natural open space areas		2	3	4	5
Littleton overall during the day	1	2	3	4	5
Littleton overall at night	1	2	3	4	5

6. You have the option to shop locally in Littleton, in other cities, or on the Internet. All things being equal, how important do you think it is to shop locally in Littleton?

O Essential **O** Very important **O** Not at all important O Don't know **O** Somewhat important

- 7. How important is it for Littleton to promote itself as a location for business, shopping, recreation and entertainment? • Not at all important O Don't know

8. First, please rate the *quality* of each of the following in Littleton. Then, rate how *important*, if at all, each is to you.

		Qı	uality		-			Im	portance	•

Overall performance of the Littleton Museum		2	3	4	5

12. If you had contact with the City of Littleton Police Department, please indicate about how many times you've been in contact over the last 12 months.

O Zero times (go to question 14) O 1-2 times O 3-5 times O 6-8 times O 9 or more times

13. Based on your most recent contact with a member of the Littleton Police Department, please rate each of the following aspects of the employee with whom you had contact.

	Excellent	Good	Fair	Poor	Don't know
Fairness	1	2	3	4	5
Responsiveness to requests and/or needs	1	2	3	4	5
Level of interest in addressing your concerns	1	2	3	4	5
Helpfulness	1	2	3	4	5
Courteousness		2	3	4	5
Knowledge	1	2	3	4	5
Timeliness of handling the situation	1	2	3	4	5
Use of force in fair and effective way	1	2	3	4	5
Resolution of concerns	1	2	3	4	5
Overall impression of staff members	1	2	3	4	5

14. Please rate the job the Littleton Police Department does at each of the following in Littleton.

	<u>Excellent</u>	Good	Fair	Poor	<u>Don't know</u>
Crime prevention	1	2	3	4	5
Crime solving	1	2	3	4	5
Maintaining public order		2	3	4	5
Providing public information and education	1	2	3	4	5
Protecting individual civil rights	1	2	3	4	5
Assisting fire responders with disasters	1	2	3	4	5

15. Please rate the Littleton Police Department on the following.

	<u>Excellent</u>	Good	<u>Fair</u>	Poor	<u>Don't know</u>
Being trustworthy	1	2	3	4	5
Acting in the best interest of the community	1	2	3	4	5
Treating all residents fairly	1	2	3	4	5
Being sensitive to residents' concerns	1	2	3	4	5
Responding to citizens' emergency calls for service	1	2	3	4	5
Caring about the well-being of the people they deal with	1	2	3	4	5
Working with people in your neighborhood to solve neighborhood problems	1	2	3	4	5
Communicating regularly with community members (e.g., websites, emails					
or public meetings)	1	2	3	4	5
Inviting community members to provide input (e.g., comments, suggestions and concerns)		2	3	4	5

16. Overall, how would you rate the quality of municipal services provided by the City of Littleton?

O Excellent	O Good	O Fair	O Poor	🔾 Don't know
-------------	--------	--------	--------	--------------

17. Please rate the following categories of Littleton government performance.

<u>E</u>	xcellent	Good	Fair	Poor	Don't know
The direction the city is taking with respect to open space, trails and parks	1	2	3	4	5
Attracting companies to locate in Littleton	1	2	3	4	5
The job the city government does at welcoming citizen involvement	1	2	3	4	5
Opportunities to participate in city government decisions	1	2	3	4	5
Responding to citizen complaints and concerns	1	2	3	4	5
Holding public meetings about city plans	1	2	3	4	5
Littleton's elected officials' consideration of what people like me think	1	2	3	4	5
Littleton's government as an example of how best to provide services	1	2	3	4	5
The city manager's management of city operations	1	2	3	4	5
The quality of work provided by City of Littleton employees	1	2	3	4	5
Spending local tax dollars wisely	1	2	3	4	5
The value of services for the property taxes paid to Littleton	1	2	3	4	5
A city government that is run efficiently	1	2	3	4	5
Running Littleton's local government in the best interest of residents	1	2	3	4	5
Being transparent and accountable to the public	1	2	3	4	5
Providing information about city plans and programs	1	2	3	4	5
The overall direction the city is taking	1	2	3	4	5

18. To what extent do you trust that the decisions made by city council represent the best interest of citizens?

- **O** To a great extent
- **O** To a moderate extent
- ${\mathbf O}$ To a small extent
- ${\bf O}$ Not at all
- O Don't know

19. Envision Littleton is the City's Comprehensive Plan, which was a community driven process to plan for the next 20 years and was adopted by City Council in October 2019. The unifying vision for 2040 includes the following six elements. Please indicate whether you feel the city should apply more effort, the same amount of effort or less effort toward each.

	More	Same	Less	Don't
	<u>effort</u>	<u>effort</u>	<u>effort</u>	know
Maintaining the integrity of its established neighborhoods and historic areas	1	2	3	4
Protecting the cherished natural setting in harmony with new development and redevelopment	t1	2	3	4
Ensuring reinvestment in the community has met local expectations for quality and compatibility				
with its surroundings	1	2	3	4
Making itself safer and more accessible for all the ways that people navigate through and within Littleton	า1	2	3	4
Achieving a higher standard for cleanliness and remaining a place with strikingly beautiful vista	51	2	3	4
Securing the long-term sustainability of city finances to continue providing its citizens				
the best in public services	1	2	3	4

20. Thinking about the next five to eight years, how important is each of the following potential projects in Littleton? Please first circle the number which best fits your opinion for each item. Then, check the <u>ONE</u> circle for the item you think is the most important future project for Littleton.

	Very	Somewhat	Not at all	Don't	Most
Essentia	<u>l</u> important	<u>important</u>	<u>important</u>	know	<u>important</u>
Reducing traffic congestion on city streets1	2	3	4	5	0
Maintaining and improving city infrastructure (e.g., streets,					
sidewalks, buildings, etc.)1	2	3	4	5	0
Building new trails1	2	3	4	5	0
Continuing preservation programs for historic buildings1	2	3	4	5	0
Partnering strategically and financially with the private sector					
in development1	2	3	4	5	0
Redeveloping older neighborhoods1	2	3	4	5	0
Redeveloping aging shopping centers1	2	3	4	5	0
Expanding programs for youth1	2	3	4	5	0
Expanding programs for seniors1	2	3	4	5	0
Expanding programs for immigrants1	2	3	4	5	0
		-		-	

21. Please indicate how much of a priority, if at all, you think it is for the City of Littleton Police Department to focus resources on each of the following areas in the next two years.

	High	Medium	Low	Not a	Don't
	priority	<u>priority</u>	priority	<u>priority</u>	<u>know</u>
Traffic issues/residential speeding	1	2	3	4	5
Vandalism/graffiti	1	2	3	4	5
Fraud/identity theft	1	2	3	4	5
School safety (bullying, fighting, weapons)	1	2	3	4	5
Homeless/transient-related issues	1	2	3	4	5
Gang activity	1	2	3	4	5
Violent crimes	1	2	3	4	5
Property crimes	1	2	3	4	5
Hate crimes	1	2	3	4	5
Disorderly conduct/public intoxications/noise violations	1	2	3	4	5
Disorderly youth/underage drinking	1	2	3	4	5
Drug abuse (manufacture, sale, or use of illegal/prescription drugs)	1	2	3	4	5

22. The city currently has a budget shortfall to fund all the needed improvements to aging infrastructure, such as maintaining streets to an adequate level, maintaining and adding sidewalks and maintaining existing buildings. If the city asked voters to pass a sales and use tax increase of three-quarters of a cent (\$0.0075) on every \$1 which would sunset (expire) in 15 years, to what extent would you support or oppose this increase?

• Strongly support	• Somewhat support	• Somewhat oppose	O Strongly oppose	🔾 Don't know

- 23. A three-quarters of a cent sales and use tax increase will generate approximately \$9.1 million a year, which will help to cover a portion of the costs to make the needed improvements. However, a higher sales and use tax increase would allow more improvements to be made sooner, while a lower sales and use tax increase would allow fewer improvements over a longer period of time. Thinking about a potential sales and use tax increase, which of the following statements best describe your opinion? Please select only one.
 - O I'd rather pay a 1 cent (\$0.01) sales and use tax increase to complete more of the needed improvements sooner
 - O A three-quarters of a cent (\$0.0075) sales and use tax increase sounds like the right amount to me
 - O I'd rather pay one-half of a cent (\$0.005) sales and use tax increase and complete fewer of the needed improvements over a longer period of time
 - **O** I do not want a sales and use tax increase
- 24. To what extent would you support or oppose a lodging tax that hotel room visitors would pay with the money to be used for tourism, marketing and promotion of Littleton?

• O Strongly support • • • • • • • • • • • • • • • • • • •	Somewhat support	O Somewhat oppose	• Strongly oppose	🔾 Don't know
--	------------------	-------------------	-------------------	--------------

25. Please indicate how important it is to you, if at all, to receive information from the city about each of the following topics.

	Very	Somewhat	Not at all	Don't
Essential	<u>important</u>	<u>important</u>	<u>important</u>	<u>know</u>
Special events (e.g., concerts, races, festivals)1	2	3	4	5
Police/crime data1	2	3	4	5
City finances/budget1	2	3	4	5
Development projects (new residential or commercial buildings or sites)1	2	3	4	5
Demographics of the community1	2	3	4	5
Public asset conditions (streets, city buildings/facilities, etc.)	2	3	4	5
Code enforcement requirements and current activity1	2	3	4	5
Street/traffic/road work1	2	3	4	5
Community planning (land uses, transportation, etc.)1	2	3	4	5
Economic development1	2	3	4	5
City council decisions1	2	3	4	5
Other topics you would like to receive information about:				

26. Please indicate whether each of the following is a major source, minor source or not a source of information for you when looking for information about the City of Littleton.

Major source	Minor source	Not a source
